

## Mundi Diversi (Worlds Apart)

After Latin class, I went searching for the answer to this puzzle. I took my Mac with me so I could use Google Earth.

I traveled from Singapore to Malé, Maldives, and exactly halfway there I was suddenly flying over the Mountains of Libya!

I traveled from Fairbanks, Alaska to Colville Lake, Canada, and exactly halfway there I was suddenly flying over the Hills of Scandinavia!

I traveled from Mytilene, Greece to Kampala, Uganda, and exactly halfway there I was suddenly flying over the Land of Arabia!

I went all over the world, searching. Then, exactly halfway between Divisa Alegre, Brazil and Lima, Peru, I found what I was looking for.
